DRY SOLES SHOE INSERTS

PEEL & STICK!

Eliminate squishy feet. Unlike suede and tightly woven fabrics, DrySoles use a non-woven fabric that absorbs moisture and channels it away from your feet where it dissipates quickly. Random interlocked fibers are compressed into firm, 1/8" thick fabric strips. This special fabric blend is 70% wool and 30% Rayon, a perfect combination for absorption and evaporation of perspiration without unnecessary odor. So feet feel dry even in closed shoes and even when wearing pantyhose. Sold by the pair.
